Home Safety

Carbon Monoxide, Fire, and Smoke Alarm

Features

Combined carbon monoxide and smoke alarm, single unit. Test reset button tests alarm circuitry. Flashing red LEDs indicate low battery condition.

Benefits

The KN-COSM-XTR-B alarm protects your family from smoldering and fast-flaming fires as well as carbon monoxide. The verbal warning message of "Fire! Fire!" or "Warning! Carbon monoxide!"

Carrier Carbon Monoxide Alarm

Features

The Carrier AC powered, plug--in, carbon monoxide alarm utilizes sophisticated electronic components and unmatched sensor technology. The units will detect CO levels as low as 30 PPM with its peak level memory display.

Benefits

The Carrier Carbon Monoxide Alarm alerts you to carbon monoxide (CO) which is invisible, odorless, tasteless, nonirritating, poisonous gas that is completely undetectable in your senses.

Duct Mounted Smoke Detector

Features

Monitors air from all areas of the house instead of one location.

Benefits

A duct smoke detector increases the level of protection to the HVAC system. Protects your home by an alarm and shutting down your system stopping the spread of smoke.

Surge Protector

Features

Protects your furnace or air conditioner from electrical surges that come through the utility lines.

Benefits

Protects your furnace and air conditioner from electric surges that can ruin circuit boards, capacitors and other electronic components.
